

# "Carol I" National College

Anniversary Week

## Short history

“Carol I” National College was officially founded on **20 may 1826**. In the 1843-1844 school year, the Central School had 405 students (250 from Craiova and 155 from other localities). In 1852 the school closed and its building became a hospital. The new school was built between 1893 and 1895 and cost over one million lei. After several accidents such as an earthquake or a fire, but also the construction of other buildings, the high school reached the form it is in today.

***This was the school around 1900***

***And this was around 1930***  
( Another floor was built )

**This is the main building as it is today**

# Anniversary Week

Every year we celebrate the high school anniversary week with several volleyball, basketball and football matches between the classes. The winning teams are always awarded with T-shirts, medals and diplomas.

In the end, from the point of view of the students, it was not a bad week, on the contrary, it was a time spent with joy because we all watched the matches and did not do normal classes. It was really funny because the teachers we had class with accompanied us to watch the matches together to know we were safe.

# The Teachers' Match

After the students played different sports against each other , even the teachers played football. In addition to the young and fit ones, even some older dedicated teachers took part in this competition for fun. We children also supported them from the sides of the field. It was nice seeing our teachers happy , reliving their childhood.
